OVERVIEW OF CBT: <https://patient.info/mental-health/cognitive-behavioural-therapy-cbt-leaflet> CBT focuses on 'here and now' problems and difficulties. *From your thoughts come your feelings which lead to your actions and habits*

CBT works to help us notice and change problematic thinking styles or behaviour patterns so we can feel better. It invites people to notice the connection between:

- How we think about ourselves, the world and other people
- How these thoughts are connected to our behaviours and feelings
- How external factors or stressors can influence this

WEBSITES: *self-help resources*
